SERIES 80

2 Piece Threaded Full Port Ball Valves

Flow-Tek's Series S80 ball valves have been designed to meet the needs of the chemical, textile and process industries. Standard 2-piece valve bodies are available in stainless steel. Stainless steel bodies are investment cast and solution annealed for the

highest quality and added strength. All body castings are marked with a foundry heat number for full traceability. These quarter turn valves feature a full port design that minimizes pressure drops with smooth flow characteristics.

Other features include low operating torque, adjustable stem packing, blowout proof stems, stainless steel safety latch handles, and optional oval handle.

Size	Pressure Rating	Steam Rating	Temperature Range	End Connections	Body Material
1/4" to 4" 8mm to 100mm	1000 psi WOG 69 bar	150 psi WSP 10.3 bar	-50°F to +450°F -46°C to +232°C	Threaded - NPT Threaded - BSPT Threaded - BSPP	Stainless Steel
